1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the disclosure on page 17, line 12 after " inverter. " added the new language of - - A dielectric 66 is interposed between the cold plates of the first and the second power module. - -.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Abramonte on 5/4/05.

3. The following is an examiner's statement of reasons for allowance: the cited art does not teach nor suggest a power system composed of first and second power modules with a housing, a cold plate attached to each module housings, first and second busses accessible from the exterior of the housings, a first set of terminals accessible from the exterior of the housings, the cold plates facing each other and at least one external connector electrically coupling the busses of the modules together as claimed in claims 1,16,20 ,26 and 31, respectively.

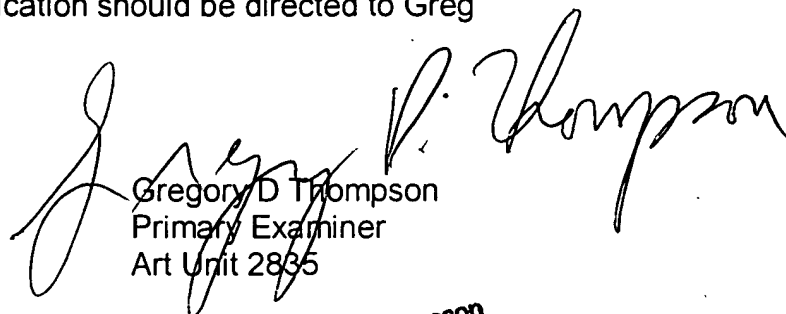

ant ubmitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
